

Hello,

My name is Orel Zilberman. I am a passionate programmer with a BSc. in Software Engineer (Since 2018).

I have experience in multiple platforms, ranging from Web to native Android and iOS mobile development and a touch of cross platform (React Native).

I love to explore new topics and to learn as much as I can.

Recently I became a Udemy fan with a 3 certificates (and counting) (Swift+Swiftui, 60hrs, Machine Learning 43hrs, Cyber Security part 1 13hrs).

I am an active developer with critical thinking. I take part in discussions about the future of the development and say what I think.

I am a good team player and a solo one as well. I have a proven passion for challenges and learning and I am not afraid of hard work. I am dedicated to what ever it is I am doing and I keep in tune with new developments.

You will find high level summaries of my experience/education in my resume.

In my github you will find projects that will give you a sense of the technologies that I have worked with.

Sincerely,

Orel Zilberman
